PROFESSIONAL SUMMARY

Customer-focused technology professional with experience spanning Technical Program Management, Customer Experience, Cloud Infrastructure, Customer Engagement, and Project Management. Combines Oracle Cloud technical expertise with strong analytical, project management, communication, and cross-functional collaboration skills. Experienced in translating technical and customer insights into scalable programs, engaging content, and actionable business outcomes.

PROFESSIONAL EXPERIENCE

Technical Program Manager | Oracle | 01/06/2025 – 31/01/2026

- Designed and implemented **3 scalable customer-focused programs** across Application Development and Observability & Management.
- Collaborated with Sales, Product, Engineering, Marketing, and other cross-functional teams to align program objectives with customer needs and business priorities.
- Managed initiatives from ideation through rollout, coordinating stakeholders, deliverables, timelines, risks, and execution.
- Developed playbooks, documentation, and reusable assets to support consistent customer engagement and accelerate customer outcomes.
- Tracked program performance and prepared leadership reporting covering adoption, business impact, and scalability.
- Established feedback loops to capture lessons learned and continuously improve program design and delivery.

Customer Experience Analyst | Oracle | 01/06/2024 – 31/05/2025

- Designed, managed, and analyzed customer experience surveys across multiple customer touchpoints.
- Managed approximately **5,000 customer surveys**, improving response rates by **3% through questionnaire and delivery optimization.**
- Analyzed NPS, CSAT, customer feedback, and sentiment to identify trends, pain points, and improvement opportunities.
- Developed and maintained **3 dashboards tracking customer experience KPIs.**
- Translated customer feedback and data into actionable insights and recommendations for leadership and cross-functional teams.
- Collaborated with Marketing, Support, Product, and other teams to incorporate customer insights into improvement initiatives.
- Automated survey data collection using Python and Playwright, improving data accuracy and reducing manual effort.

Project Manager | Oracle | 01/06/2023 – 31/05/2024

- Managed content and engagement projects from planning through delivery, ensuring quality, relevance, engagement, and timely execution.
- Coordinated stakeholders across Marketing, Design, Technical, and content teams.
- Provided creative direction and feedback to content creators developing educational video projects.
- Managed content updates, metadata, performance tracking, and workflow improvements.
- Monitored performance metrics to identify opportunities to improve audience engagement and retention.
- **Streamlined production workflows** to improve consistency, efficiency, and delivery timelines.

Cloud Infrastructure Engineer | Oracle | 01/07/2019 – 31/05/2024

- Supported and onboarded approximately **300 Oracle Cloud customers**, helping them understand, adopt, and effectively use OCI services.
- Delivered 1:1, group training sessions, and webinars on Oracle Cloud infrastructure and networking topics, typically reaching 20–40 participants and occasionally up to 100 participants.
- Created **60 OCI-in-5** educational videos simplifying complex Oracle Cloud concepts for customers and internal audiences.
- Designed and built the OCI-in-5 website from scratch, creating its structure, organizing content, managing accessibility, and maintaining the platform.
- Managed approximately **300 video assets**, including content, metadata, updates, organization, accessibility, and internal access.
- Designed and implemented Slack workflows to automate and streamline communication and operational processes.
- Provided customer-facing technical support related to OCI networking and cloud infrastructure, including NAT, Internet Gateways (IG), Network Resource Groups (NRGs), and related networking configurations.
- Served as OCI Administrator for 3 internal tenants with 2000+ users, managing configuration, users, and access controls.

EDUCATION

PMI(R) Authorised PMP(R) Exam Preparation
QA Limited

University of Pardubice | Chemical Engineering and Processes

Bachelor Degree | Transilvania University of Brașov
Engineering, manufacturing and construction: Environmental protection technology

Psychopedagogical Module I
